Stallion Collection, each time	190	Mare Breeding Soundness	350
Live Cover Assist	100		

Typical charges for breeding a mare on the farm with shipped semen or from locally collected semen average \$600 to \$700 per heat cycle. The overall fertility rate is a little less than two heat cycles per pregnancy (50%+ mares are pregnant on the first heat cycle.). It is important to remember that some mares may not be pregnant after breeding for multiple heat cycles. **There is no guarantee.**

Durango Equine Veterinary Clinic
20908 W. Durango Street
Buckeye, AZ 85326
623-386-2928/Fax: 623-386-7914

Board is in addition to veterinary services.

For shipping semen we require a valid credit card number or a \$300 cash/money order container deposit. After billing, any deposit credit remaining at the end of the season will be refunded. If you have any questions, please feel free to call us. We do accept MasterCard, Visa, American Express and Discover Card for your convenience.

- Stallion Breeding Soundness exam consists of:
 - ** 2 stallion collections, Culture, Longevity and Morphology
- Mare Breeding Soundness exam consists of:
 - ** Ultrasound, Vaginal exam, Culture and Biopsy

“Standing your stallions and caring for your mares during the 2009 breeding season would be our pleasure”
